call for propsals.

We invite all agile practitioners to present at the Agile Tour Vienna 2022. In the previous years we had a good mixture of **German** and **English** talks, so contributions in both languages are welcome.

The submission deadline for 2022 is:

YOUNG TALENT

15
April
2022

REGULAR SPEAKERS

15
May
2022

Early Bird Submissions:

Submitting **in time has a big advantage** at the Agile Tour Vienna. If you submit by 15 April, you will receive **valuable and constructive feedback from our review team** and have the opportunity to **adapt your abstract** accordingly.

The Review Team will finish the selection of talks for the "Young Talents" track by the end of April, and for the main track by beginning of June. Everyone who submitted a proposal will be informed once the decision is final. Speakers will receive a free ticket for the Agile Tour Vienna 2022. The Agile Tour Vienna is a non-profit community event which aims to keep ticket prices low. Therefore it is not possible to cover travel expenses or pay a speaking fee.

The conference takes place on **Thursday, September 15, 2022**.
Submit your session here: https://www.conftool.net/agile-tour-vienna2022/

TOPICS TO COVER

We will have three tracks, please indicate in your submission which track you feel is most appropriate. We reserve the right to move your topic to another track if we feel it is more appropriate.

Track 1: Agile values in a hybrid office

→ Working in hybrid teams is here to stay. Tell us how you addressed the new challenges and possibilities this created for agile teams.

Track 2: TechTrack

→ Tell us how you are addressing software engineering challenges in an increasingly complex world.

Track 3: Inspect and Adapt

→ Inspect and Adapt is a cornerstone of Agile. Tell us how this changed your way of working, the direction of your product, or the culture in your company.

In particular, we are looking for contributions involving customers and real-life case studies (the more state-of-the-art and experimental, the merrier – people who dare to try should be on stage).

FIND YOUR FORMAT FOR YOUR SESSION

Possible session formats are:

• Classical Talk
• Interactive Session / Workshop
• Practice Report (Case Studies)
• Young Talent (details on page 2)

These formats are typically around 45 minutes (including Q&A). If your proposed session involves longer exercises or a special format, we can also offer you a 90-minute slot.

FOR YOUNG TALENT ONLY

We will again have the special "Young Talents" track, which is dedicated to supporting young professionals who hold their first session at a conference.

There is a specific set of requirements for submissions for this track:

• You are under 30 years old
• This is your first presentation at a conference
• Your session is a classic talk or practitioner report

Young talents will receive additional support.

• **Before the conference:**
    → Feedback on your presentation, including the opportunity to work with a seasoned
    → Feedback on your proposal, including the option to get in touch with an expert
    → Individual coaching to prepare you for your talk
    → Option to hold a rehearsal in front of a small audience providing you with valuable feedback

• **After the conference:**
    → Personal feedback from experts
