TECHTALK

Scrum Master Learning Journey

with veteran practitioners *Zvonimir Durcevic & Robert Finan*

The Scrum Master Learning Journey mixes intensive days of onsite theory with the chance to put it directly into practice. The theory days will inspire you with new ideas which you can use with your own scrum teams. There will also be individual goals and team assignments to work on between the learning days. The **hands-on weeks** will be supported with **Lean Coffee** and **mentoring** for the team assignments.

Expand your horizons with topics such as:

- Agile Coaching Growth Wheel
- Team Effectiveness Model
- Facilitation
- Agile Technical Practices
- Design Thinking
- Impact Mapping
- Feature Mapping
- Lean Portfolio Management
- Leadership vs. Management
- Solution-Focused Coaching
- Change Models
- *Bonus: How to make Jira work for you!*

Individual and Team assignments in the "hands-on" phases.

Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7
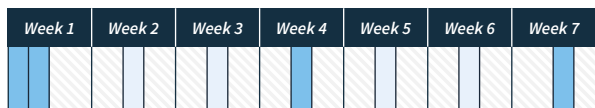

- ■ *Onsite Training*
- □ *Lean Coffee/Mentoring*
- ▨ *Hands-on*
